Why use Fixacouette?

*Fixacouette*<sup>®</sup>

1- Prevent MSD

# Changing a duvet cover is:

Repetitive Task + Painful Positions  
=  
Musculoskeletal disorders

Working in pairs, using a device to lift the bed,  
and carefully following the posture training...  
are not enough to prevent MSDs.

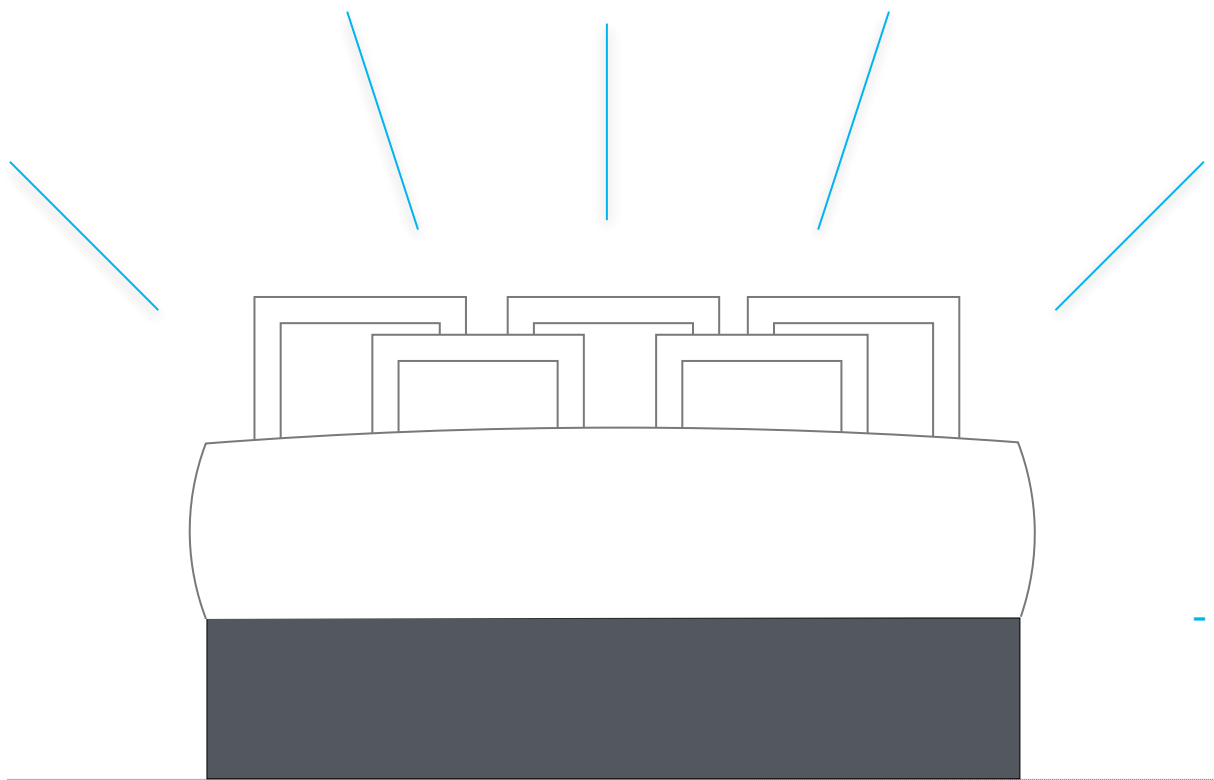

Using Fixacouette® means no more postures  
that are harmful for the shoulders and joints  
and responsible for sick leave.

2- A perfect bed every time:  
Offer every one of your guests the  
excellence they have come to expect.

## Using Fixacouette®

means having a perfectly taut duvet cover both on top and inside the bed, regardless of the housekeeper's experience or level of expertise.

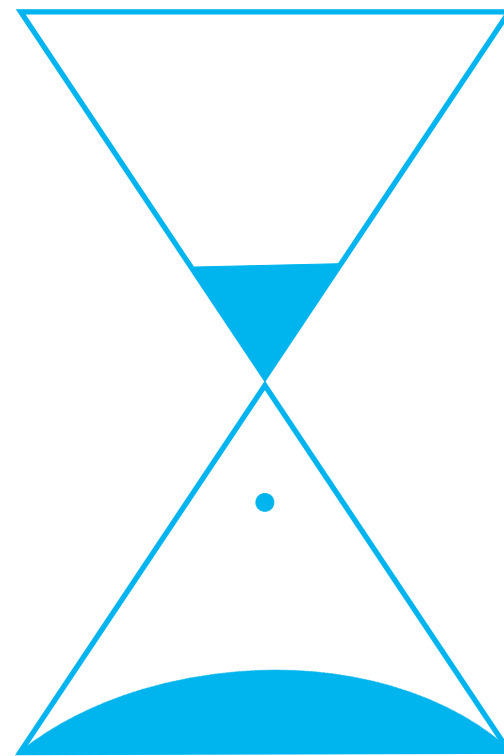

- Offer a perfectly made bed
- Easy training
- Uniformity in every one of your establishments
- Heightened guest comfort

3- Save Time

# Using Fixacouette® means saving time, every time.

- Save time, whether the housekeeper works alone or in pairs:  
reduce the number of trips around the bed / optimum finish in minimal time
- Save time during the governess's review
- Save time during the remaking and turndown services

4- Ensure flawless hygiene

Using Fixacouette®  
means removing the duvet cover without ruffling or shaking.

- No more hair caught in the covers or mattress
- No more remote controls, phones or jewelry caught in the linens
- And no more negative comments on TripAdvisor, Booking.com ...
